

Passionate about data analytics and software development. Currently strengthening my skills in Python, Java, MySQL, Power BI, and Tableau through coursework, projects, and continuous learning. Eager to gain practical experience, contribute to meaningful projects, and further develop my expertise in data and technology.

SKILLS

- **Languages** Python, OOPS using Java, Data structures using C
- **Databases** MySQL, MongoDB
- **Other** Microsoft PowerBI, Tableau

EDUCATION

BACHELOR OF ENGINEERING (B.E.) IN COMPUTER SCIENCE ENGINEERING (DATA SCIENCE)
NEW HORIZON COLLEGE OF ENGINEERING | 2024-2028

- CGPA: 8.65

XII-INDIAN SCHOOL AL SEEB | 2022-2024

X-INDIAN SCHOOL AL GHUBRA | 2014-2022

PROJECTS

Light Following Robot (IoT)

- Developed an IoT-based robot that automatically follows light using LDR sensors and microcontroller.

Smart Pet Feeder (IoT)

- Built an automated pet feeding system with scheduled feeding functionality using IoT technology.

Student Performance Classification System

- Developed a machine learning model to classify student performance using academic data analysis.

Tourism Analysis Data Visualization (Power BI)

- Designed a Tourism Analysis Dashboard in Microsoft Power BI to visualize tourist visits, destination popularity, and monthly travel trends.

CERTIFICATES

Linux Training Certification – Spoken Tutorial, IIT Bombay (EduPyramids)

May 2026

- Completed Linux training with practical experience in Linux commands, terminal operations, and file management.

DBMS Course – Master the Fundamentals and Advanced Concepts | Scaler Topics

May 2026

- Completed a comprehensive DBMS course covering database design, SQL, normalization, transactions, indexing, and query optimization.

NPTEL Certification-The Joy of Computing using Python

April 2026

- Successfully completed the certification, covering Python programming, data structures, functions, and real-world problem-solving.

Git Training Certification – Spoken Tutorial, IIT Bombay (EduPyramids)

November 2025

- Completed Git training with hands-on experience in version control, repository management, branching, and collaboration using Git.
